

ANNUAL INDEX

The Logistics and Transportation Review Volume 26 — 1990

- Walid M. Abdelwahab and Michel Sargious**
Freight Rate Structure and Optimal
Shipment Size in Freight Transportation 271
- Ronald D. Anderson and Roger E. Jerman**
Determinants of Support for a Completely Deregulated
Transportation Environment: A Path Analysis 99
- William M. Bassin**
A Nonlinear Programming Model for
Product Line Optimization 381
- Mary R. Brooks**
Ocean Carrier Selection Criteria
in a New Environment 339
- Richard V. Butler and John H. Huston**
Airline Service to Non-Hub Airports
Ten Years After Deregulation 3
- Paul A. Cleveland**
The Impact of Deregulating Domestic Airline Transportation
on the Commercial Aircraft Manufacturing Industry 249
- Frederick C. Dunbar and Joyce S. Mehring**
Coal Rail Prices During Deregulation:
A Hedonic Price Analysis 17
- A.K. Fosu and O. Izraeli**
Preferred Speed, Actual Speed, and Marginal Benefit
of Transportation Resources 77

David A. Hensher Hierarchical Stated Response Designs — An Application to Bus User Preferences	299
Adib Kanafani and Theodore E. Keeler Air Deregulation and Safety: Some Econometric Evidence from Time Series	203
Mark H. Keaton Economies of Density and Service Levels on U.S. Railroads: An Experimental Analysis	211
Andrew N. Kleit The Unclogged Bottleneck: Why Competitive Access Should Not Be An Antitrust Concern	229
John T. Mentzer, Camille P. Schuster and David J. Roberts Microcomputer versus Mainframe Usage in Logistics	115
Hokey Min and Martha Cooper A Comparative Review of Analytical Studies on Freight Consolidation and Backhauling	149
Edward A. Morash On the Use of Transportation Strategies to Promote Demand	53
Fazil T. Najafi, Abdenour Nazef and Paul Kaczorowski Location Alternatives for Fiber Optic Cable Installation	171
Manuel G. Russon Iterative Nonlinear Estimation of Air Passenger Flow Sensitivity to Political Boundaries and a Complex Function of Distance	323
James R. Stock Managing Computer, Communication and Information Technology Strategically: Opportunities and Challenges for Warehousing	133

S. R. Thompson, R. J. Hauser, and B. A. Coughlin	
The Competitiveness of Rail Rates for Export-Bound Grain	35
Rex S. Toh and Michael Y. Hu	
A Multiple Discriminant Approach to Identifying Frequent Fliers in Airline Travel: Some Implications for Market Segmentation, Target Marketing, and Product Differentiation	179
Michael W. Tretheway	
Globalization of the Airline Industry and Implications for Canada	357
D. Clay Whybark	
Education and Global Logistics	261
Alan W. Williams and Peter Currey	
Desired Attributes of Logistics Managers and a Learning Hierarchy in Management Education	369
